That nothing can be more acceptable to him than to hear of some New Progress of the Gospel in America by means of the Society. 6866 Ben: Marshal Naunton near Stowe Glocest.r 30. Novr That the Observations in the Society's Catalogue of Books in their Cir: Letter on the Subject of the Holy Sacrament are excellent in their kind, but as they are very large and adapted to Congregations where the Communicants are Numerous ~~[illegible]~~ as in London and other Great Cities, so they are proportionably dearer than those Books which seem better Adapted to the Smale Congregacons in the Country where the Numbers of Communicants seldom exceed twenty more or less, to whom a Smale Cheap Book containing Multum or rather Omnia in Parvo, would be most acceptable and that to their purpose, the best that he has hitherto met with is a Little Book Entitled A Companion to the Altar Shewing the Nature and Necessity of a Sacramental Preparation with Prayers and Meditations &c Printed for Edward Parker in Lombard Street, afforded for 3. pence a piece wherein the Prayers before and after Receiving the Holy Sacram. (in the Society's Greater) consisting of the Devotional parts are rated ~~at the Lesser~~ at 6. pence a piece, he recommends it therefore to the Society whether some Book upon that Subject better adapted to Country Congregations may not deserve their Consideration.

6875. Pat. Dujon at Doncaster Yorksh. 4. Decr Thanking the Society for the Packet he had Reed, Which contains very good and Useful things. That he hopes he is mistaken in the Reflection he is going to make on Mr Sevenson's Letter from Fort St. George relating to the Malabar Mission, the Author which seems to be either Uncautious and knows not at present our unhappy Disputes with the Arrians &c. or is too far gone with them, for Mr Dujon thinks it Surprizing that in a Letter written on purpose to encourage the Protestant Mission in the East Indies there is not one word of Faith in Jesus Christ, and that he could not forbear being Surprized at that Omission especially when he found in the 7th page these words, in that Primitive Simplicity and Plainness of Speech, which we find us'd in Scripture, and unclouded with the Arbitrary Impositions and pretended Explications of our Christian Faith. That he thinks the Author of the Letter might for the sake of the Church of which he is a Member, and of the Antient Church which used Creeds freely, have distinguished between Explications and Additions since there is no Arrian, Deist or Socinian would chose to use other Expressions in their present Circumstances. That Dr Clark's Psalms and this Letter may both be Reed when there is no grounds to suspect, But Mankind cannot be too cautious when the very Foundation of their Religion and Salvation is at Stake. He desires a packet of the Society's Books as mencond in his Letter may be sent to him to be paid for as usual

6901. L^d Digby at Coleshill Warwickshr 1. Janry. Thanking the Society for the packet. That he has read over the Letter from Fort S^t Georg Wrote by M^r. Stevenson with so good Judgment and giving so fair a Prospect of Succ^s to the Mission in that part of the World, as Inclines him to contribute 10.£ ~~p^o Ann~~ towards the Support of the same. That the Office of a Missionary Sent to convert Infidels appears to his Ldp of so nice and difficult a Nature, that he fears few of those who are perswaded to undertake it are sufficiently qualify'd for it, and therefore he has thought that it be of great Use to have proper Directions for their Conduct drawn up here by the Governors and Greatest Men of the Church: Chiefly to direct them in the Order and Manner of proposing Divine Truths to ~~those people~~ the Heathen, upon which humanly speaking the Succ^s of their Ministry does in a great Measure depend. That 3. more Children are added to the School at Sherburn in Dorsetshire, and though they are only Boarded it seems to succeed very well, but they have been Obliged to alter the Method of that in Coleshill, where instead of Boarding all that are taught they have three into the House with the Mistris to be fed as well as Boarded, That this Method has been Try'd almost 2. Years and is like to succeed so much better than the former as to Occasion the Increase of the Number of those so provided for which are Chose out of the 12. or 14 other Children taught in the School. That an Honest poor Nayler has lately left a Legacy he had which is 6. pounds ~~p^o Ann~~ to the Charity Sch: at Coleshill.

6903. Bryan Blundell Leverpole Lancash. 30. Dec^r Thanking the Society for the Packet of Books, That it having pleas'd God to place him in the Station of Mayor of the ~~place~~ Town he has made use of his Authority to Check the Reigning Vice of the place, and in Order to it has increas'd the Number of Constables from 2. to 8. who have been very Serviceable in finding out Ill houses and bringing the Keepers of them to the punishm^t they deserve; That he finds the dispersing of some Books recommended by the Society very proper to admonish the people of their Duty, at the same time they are punished, Therefore he desires a part of the Books mentioned at the Bottom of his Letter to be paid for as usual. That they are Petitioning the King for a Charter for the Hospital of the place, and should be glad of the Society's Advice and Assistance therein

6907. Joseph Adams. London. 30.th Decemb.r Desiring to be Excused if he declines Accepting the Offer of going to Delagoa with the Two African Princes of that Country, because his Relations will not consent to his going such a Voyage, and besides the commonness of Pirates upon that Coast makes it very hazardous for any use full Englishman to be found Resident in those parts.

Jan.y Thanking the Society for the Packet he had Received, the Contents of which he has perused with great Pleasure, as it gives him a Prospect of the Increase of true Christian Knowledge, both here at home and in all Quarters of the World. That as to the Second Paragraph of the Society's present Circular Letter there can be no Method of Instruction more properly us'd among common Men and Women, than that of Little Books of plain and practical Points, which are the more profitable to them in that they do not Clogg and Overcharge the Mind, but make their Reading a Delight, of which he has been so thoroughly convinced that he has printed several of his Discourses, at his own Charge, & presented them to his Parishioners wch a very good Effect

That there are very few Dissenters in his Parish, and none among the Old Colliers, who generally come well to Church, That they have a great many Children and several of them are at the Charge of putting them to School, But the Method to make the poor Children of Indigent Widows to come constantly to School in Summer is among the Desiderata in that Neighbourhood. That the Labour of Leading Coals by Waggons is so great as usually to bring the Men to their Graves in the Middle of their Age, which fills the Neighbouring Parishes full of Poor Widows and Children, the Maintenance of whom chiefly depends upon the Labour of the Children, who are commonly employ'd either in the Pits under Ground, or in Leading Carts in the Summer time from 6. or 7. Years old, So that if their attendance at School should be rigorously demanded the poor Families would Starve, and therefore all that can be done is to prevail with those that live near the School to come part of the Day when they have left their Work.

7002. Sol: Pagel at Tarnborough Somersetsh. 10th March. Thanking the Society for the Packet he had Receivd. That it is with much Satisfaction he finds by it that the Society continue their Indefatiguable Labours for promoting Christian Knowledge in Foreign parts in the East Indies Asia Syria &c. That it is with noless pleasure that he observes they employ their Endeavours at home where their Cares are no less necessary, and where they know that Charity must begin first. That generally in the Country Villages, notwithstanding the Insisting upon it in Sermons to recommend to the People the Service of the Church the Excellency of the Comon Prayer, and their usefulness to promote Piety, yet they persevere in a great contempt of it, and for from performing the part which is Allotted to them in Divine Service, they are content to sit in their Seats without any Motion or Change of Posture or to come to Church at the End of the Service or only to hear the Sermon. He therefore recommends it to the Society to think of som Means to redress so great an Evil, which in his Opinion would procure an Inestimable Advantage to the Church. That having lately perus'd a Book Entitl'd the Beauty of Holiness in the Comon Prayer by the Revd Dr Bisse preacher of the Rolls, he Submits it to the Consideration of the Society, whether the Reprinting of that Book, or an Abridgment of it, may not be usefull to be dispers'd for such a Purpose.

That through Mr. Sherman's friendly Assistance he had made some Entrance into Arabick and bent the Course of his Studies for Staying there some years. He refers to Mr. Sherman for a more particular Account of what might be said upon the Society's Proposal, and hopes by God's Blessing, in less than five Months, to wait on the Society in person, to answer Questions which a Letter cannot.

7006. Rowland Sherman merch.t at Aleppo in Syria 29. Decr. 1721. In Answer to the Society's first General Letter of the 17. Decemb.r 1720. Thanking them for the Honor they have done him in chosing him a Member of their Body, and to assure them there is nothing he wishes more than that it may please God to make him as able as he is willing to answer their Desires by concurring with them in a Design so truely Noble as the Propagating Christian Knowledge and to extend the Blessing of it to the utmost parts of the Habitable World. That he has with much Satisfaction perus'd the Papers sent to him concerning the Nature Rise and Progress of the Society, and if it be not too soon for him to Offer his Sentiments, he desires he may be Allow'd the Freedom to Intimate that the Society must use great Caution in publishing either the Names or Advices of any persons who Assist or correspond with them in the Eastern Countries for some time at least, till the people there come to be undeceiv'd and enabled by the Charitable Endeavours of the Society at London to see through the thick Mists of wrong Notions which that at Rome has so long spread before their Eyes. That he was in hopes thro' the long Delay of the Ships return to have had the Copies of the New Testam.t & Psalter desired by the Society ready to be sent by them, but that a long Sickness of his Amanuensis and many other Subsequent Impediments have made it Impracticable

however he desires the Society may be assured of his Care and Endeavours to have them done and sent with all the speed that a work of such a Nature admits of, it being absolutely necessary to be wrote, not only with Leisure and with the greatest Care, but to have it examin'd Sheet by Sheet, and when the whole is done to have it compar'd with the Original to Obviate as much as may be the Objections of the Romanists who are of themselves too forward to make them, it not being their Interest to have such a Book in the hands of the Common people, and least of all by means of the Church of England, whom they have so long and so much endeavour'd to blacken and misrepresent. That as he is willing to give up for the Publick Good the Ease and Fatigue for so many Years on this Work he hopes the Society will not refuse the only Request he shall make to them, which is, that no publick mention be made of his Name on any Acc.t whatever, either at the presenting the Books or afterwards, because it is inconsistent with his first Intentions, when he undertook the Work, and may be Injurious to the Work it self, which will probably appear to operate with more Success in the Hearts of every one concerned in it, and even the place where it is print-

remain unknown to the Publick. That as to the Copies differing more
less from those commonly used in Palestine, the Society may please to know
that the version is not New but only the Old Rectify'd and restor'd, and in
doing them to followed the Commonest and best in those Countries, taking for the
Psalter, one with the Greek Patriarch of Antioch himself printed, and for the New
Testament that to follow'd the Polyglott, the Patriarch having at his request
compar'd it with the Original, and afterwards a Maronite Father did
the same by the Vulgar Latine, rectifying what ever requir'd it, But the
Acts of the Apostles and the 1. Epistle of S.t Peter and the Revelations
being too deficient to prevail on the Goodness of the Patriarch to translate
the 2. former anew and the last was done very accurately of his hand by
the aforementioned Maronite Father. That he has followed this Method
that the Clergy might look upon the Work as their own when it should
become publick; and the Work might have as little Novelty as possible
in the Language, he compar'd the whole again with the Polyglott and
where ever they had us'd any New words if the old ones would serve to
restor'd them again. That as to procuring any Publick attestations from
the Greek Patriarch to this Work, he's a man of so cautious a temper
that it will be difficult to get any thing under his hand, tho he wishes
well to the Work it self, and the Psalter is his own and the N.t Testament
was 1.t of all compar'd by himself, in consequence of which he formerly
promis'd to set his hand to it, but because the Romanists have lately
caus'd him some trouble among his Flock he don't care to do any thing
that look'd like declaring against them, like by other Method which he
is about he has quieted the Disorders in his own Church: And for that
reason it probably was that when he lately claim'd his promise he
seem'd to decline it by saying it was Needless, but on his Urging to him
the Satisfaction it would give to all the Natives, who not understanding
the Original might be abus'd by the Missionaries to think it was not
Genuine, and be a greater motive in England to print it, in order to
it's being sent thither for him to give away among his Flock, he promis'd
he would again read it over when he was at Leisure, and to Induce him
the sooner to be so, he carried it to the Syrian Bishop a prelate
of Singular Merit, who having perus'd it promis'd he would not only
carry it himself to the Patriarch but offer'd him to Sign it with him.

7108. Profess.r Frank at Hale in Saxony 27. June to Mr. Martini In y.e following words he tells the Death of Mr. Boehm could not be surprizing to me because I know of the great Infirmities of his Body yet it very much affected and grieved me as it must do all the Sincere Children and Servants of God that hear thereof. I know two Excellent persons one of whom I could with might succeed him, One is Mr. Wendt a Divine and Secretary to the Danish College at Copenhagen for promoting the Malabar Mission, but is lately informed that the King of Denmark has lately nominated him to be Præpositus of the Mission at Tranquebar. The other is Mr. Ziegenhagen Chaplain to Count Platen at Hanover, who is in many things much like Mr. Boehm deceased. His preaching is very convincing and attended with great Blessings, that I my self recommended him to Count Platen and therefore cannot contribute any thing towards his Removal however he beseeches God that he himself would give us another Boehm. And whereas my Correspondence from England has hitherto depended upon Mr. Boehm I must now desire Mr. Martini Mr. Ruperti, Mr. Newman Mr. Macbeth Dr. Clare or Mr. Chamberlayne to supply his place or if possible that the same may repaired more abundantly.

7219. Franciscus Baba a Transylvanian at London 23. Dec. That he and three of his Brethren have resolved to devote their ale to the promoting the Kingdom of God in their distressed Native Country and since nothing is so necessary to that End as a printing Press (there being but one in all Hungary and Transylvania and that in very poor Circumstances far from being sufficient to supply the Young Scholars with Books) their using their utmost Endeavours to get a New Printing Press as soon as possible to set there, the want of which will plainly appear when it is considered that there are in Hungary and Transylvania 2. hund. thousand Protestants of which not above 20. thousand have the means or opportunity to learn to read, and in the whole Country there are not above 15. thousand Bibles and of the whole Number of Protestants there are not above 10,000. who are able to purchase a Bible. That in Order to carry on their Design they upon a firm and sure foundation they intend to settle a Fund in Germany and England by the yearly Rents and Income of which to promote the Cause of God and true Religion, not only in Hungary, but in the Neighbouring Countries. That in Order to this they have most humbly addressed his Sacred Majesty the King of Prussia who has graciously order'd the Comm.rs for Ecclesiastical affairs to receive 10,000 Dollars to be deposited upon some safe Fund for yielding Annual Rents therefrom. That the Income of their Estates to be deposited in the said Fund arise chiefly from Wines, and they are oblig'd to convert what ready Money they have into such a Commodity that by that means they may the safer and easier and with less Noise carry it out of the Country. That they are determin'd if they meet with Encouragem.t to send yearly into Germany and England Barrels of their best Wine to be sold for that purpose, and the Money to be deposited in such Funds as shall be thought most Advisable. That the Sale of the Wines requiring a Space of time they can't possibly expect to lay a sufficient Foundation in less than 3. or 4. Years, so as to begin any thing of Moment with the Printing Press, And therefore it is requested of the Society, that they would be pleas'd to assist and Advise them therein, in such manner as their own goodness and prudence shall direct.

He wishes that the wise and great in that Mother of Protestant Churches would think this a favourable Juncture to engage a Company of the most Shining Lights of the greatest Abilities, the Richest Dignities and who can command the Choicest Librarys to draw up the clearest, the Shortest, the most faithfull and unanswerable Defence of the reformd Religion of that Church down to such Perfection as might be worthy to come to the hands of that mighty Prince and other Sovereign Powers. That were the Arguments which lie dispersd in many Volumes, drawn — into a narrow Compass and put together with Learning, Elegancy, and the Candor of a Christian Spirit, they would amount to a Demonstration for the Truths of our Holy — Religion.

7241. Th: Fox at Pottern Wilts. 21. Janry. in Answer to the Society's Circ: Lre of the 3. Curs! That he is glad to find they have caus'd an Impression of A.Bp. Tillotson's discourse against Popery and Transubstantiation to be made. That one of the best Sermons he has met with against the Corrupt Doctrines of the Chh. of Rome was preach'd before King Charles the Second Novr. 24th. 1678. from Acts the 2d. & 42d. Vers. by Dr Lloyd late learned Bp. of Worcester, in which Sermon and Notes are contained a compleat History of the Corrupt Doctrines of the Church of Rome, and the time when they were introduc'd into the Church, and this confirmd by such unquestionable Authorities, that he does not remember that any person of the Romish Communion has so much as pretended to answer it: That it is now so scarce as not to be had, and it has been supposd that the Papists have bought up the Impression. He therefore recommends it to the Society to encourage the reprinting of it, as one of the greatest Services that can be done by them to the Protestant Cause; And if it were translated into some of the Modern Languages, it must needs be of excellent use to the Protestants abroad. He desires the Books to be sent to him may be put to Mr Downing's Acct. till he comes to Town.
